

Tour the Glory

November 10, 2011

Today, after 3 years of being a tour guide, I was nervous to give my prospective student tour of the University Park campus. In all my years of touring, I have never had so many passing students yell “WE ARE!” and each family commented how we were “oozing school spirit.” Being able to walk around campus and prove to these families that WE STILL ARE the incredible academic institution and group of students that we’ve always been literally brought tears to my eyes at the end of the tour. Thank you to each and every student being a change leader on this campus.

Keep Calm and Fight On.
