

User Submission: You Can't. We Are!

July 24, 2012

Just hung my PSU flag outside. You will not strip me of my pride, my memories, my education, and my championship medals. You will not define me and my university because of the horrific acts of some horrific men. You will not generalize hearsay facts and use them as blows on your facebook status.

You WILL forget the academic status the university has in this country. You WILL forget that THON raises more money than any other student organization in any other university in any other country in this world. You WILL forget that Penn State is more than a football team. You WILL follow others blindly and not formulate an educated, independent, and objective opinion. You WILL not think for yourself. We WILL continue to have pride for PSU.

They will not define what Penn State is... YOU will try and let them. YOU will not succeed.
