

I Stand.....for Penn State

July 30, 2012

Now is the time for all Penn State Alumni and students, staff and faculty to rally and support OUR University. We cannot change what has happened in the past, but we CAN and MUST learn from what has happened and vow to never let it happen again. I still support all my friends from the football program who dedicated themselves to seeking a quality education while being able to participate in a sport they loved. They should not be discredited, nor should their achievements in the football program. I stand behind my university who has and continues to make unequivocal contributions to society through research and service projects conducted by our talented faculty and students. Accomplishments include: the first Driver's Education program, the first atom seen, heart assisted pump development, THON to support the Four Diamonds Club, Radiation Science & Engineering Center, which houses the oldest operating university research reactor, the Milton S. Hershey Medical Center research lab, community activists, actors, broadcasters...and numerous others. I stand with my fellow faculty as we endeavor to provide the highest in quality education to all of our students. I stand with my fellow alumni as we remain Penn State Proud. I am proud of the exceptional education I received as a Penn State undergrad. Penn State is not the actions of a man or inactions of a few men. Penn State is our students, faculty and staff devoted to making life better. I stand for Penn State University. I AM Penn State PROUD. and always remember – WE ARE and ALWAYS WILL BE – PENN STATE!!!!!! vac july 27, 2012
