

WE WILL ALWAYS BE PENN STATE

August 10, 2012

It is very disappointing that all of us from our beloved Penn State are lumped into a stereotype based on the disgraceful and most horrid actions of a few associated with the university. We are Penn State means THOUSANDS & THOUSANDS of us...if not MILLIONS. We are Penn State Proud, and our great university will rebound from this tragedy to become only stronger! It will be a difficult few years, but we can find solice in the realization of the most important thing of all...that victims of child abuse will now have the support they have been lacking. Hopefully these past nine months have given them the confidence to let their voices be heard worldwide so that this most heinous of crimes is brought to a minimum (and hopefully terminated).

May no act of ours bring shame.
